Dr. Joshua Lederberg  
Department of Genetics  
Stanford University School of Medicine  
Stanford, California

Dear Josh:

We are enclosing the Nossal and the Hirota applications which I hope you will find time to review and forward your opinions to us. Since they both come under the category of foreign applications, and because of your previous associations with them, I feel we need some word from you.

Forms for your comments are enclosed. Will you also please return the applications with them.

Best wishes.

Sincerely,

*Kay*  
Katherine S. Wilson  
Executive Secretary
